profile

Intellectually curious, with a multidisciplinary background that combines the objectivity of software development and engineering with the creativity of design, multimedia & fine arts.

Communicative. Also a great listener. Bilingual.

Available for international mobility.

aims

I'm passionate about the process of getting to what people actually want and need, to then develop functionalities with great visuals and practicality.

I seek to join a healthy, challenging, ever-evolving organization that recognizes and benefits from my enthusiasm, resilience, work ethic and wide-ranging skills.

– Let's get to know each other!
